

Join India's **Digital Health** Revolution with **ABDM**

Ayushman Bharat Digital Mission (ABDM)

Ayushman Bharat Digital Mission is an initiative by the Government of India (GoI) to achieve a seamless exchange of health information among various stakeholders of the healthcare sector.

ABDM aims to build the digital health backbone of the country necessary to bring all stakeholders together in ONE common ecosystem.

Components of ABDM

Ayushman Bharat Health Account (ABHA)

Unique Health Identifier for all individuals called as Ayushman Bharat Health Account.

Healthcare Professionals Registry (HPR)

An updated and comprehensive registry of verified public and private healthcare professionals for all systems of medicine.

Health Facility Registry (HFR)

An updated and comprehensive registry of verified public and private health facilities like hospitals, clinics, labs, pharmacies etc.

Personal Health Record App (PHR App)

One-click access to patient's own health records through ABDM enabled apps like ABHA app, Arogya Setu, etc.

Unified Health Interface (UHI)

An open network for the seamless exchange of health information among users and healthcare providers, enabling interoperability in the healthcare delivery system.

Why should you register yourself and your facility on ABDM?

Easy sharing
of records

Easy Information
Exchange

Quality of
Healthcare

Increased
Visibility
